

## Ecoshred

### Specifications:

- Source separated, composted mulch derived from tree trimmings and other plant materials
- Meets CalTrans erosion control and storm water specifications
- Meets CalTrans spec 20-5.03E for tree trimming mulch

### Value:

- Aesthetically pleasing
- Reduces erosion
- Controls weeds
- Improves water infiltration
- Reduces storm water runoff velocity & volume
- Improves soil structure over time
- Maintains soil moisture

### Recommendations:

- Applied thickness 3-4"
- Apply directly to soil
- Pneumatic blower truck application available
